

ArtCare Exhibition, Salisbury Hospital, 23rd October – 20th November

Guidelines

1. Pictures should be no bigger than 1m x 1m, including the frame.
 2. Artworks must be presented for hanging properly framed (clip frames are not acceptable). Frame fixtures must be D rings with a taut cord, not wire, and fixed in the top third of the frame. This is crucial to get right because picture frames can be damaged from badly attached fittings and the exhibition hanging system will not display your work to its full potential.
 3. Pictures must be clearly labelled on the back with the artist's name, title and price.
 4. Pictures must be unwrapped on delivery and the wrapping taken away by the artist. The hospital is unable to store bubble wrap etc. during the exhibition.
 5. There is no charge for exhibiting, but a commission of 30% will be taken on all sales. This is donated towards the Hospital Arts Service and is used for buying or commissioning further works of art.
 6. The Exhibition Organiser handles sales of exhibits, and BACS payment to artists will be issued when payment by buyers has been completed.
 7. Salisbury NHS Foundation Trust cannot be responsible for loss, theft or damage to exhibited works of art. The hanging system has security clips but artists must make their own insurance arrangements.
 8. The Exhibition Organiser reserves the right not to display all works delivered by the artist.
